(Feat: Ciara)

I'm so done  
I'm through  
It's your fault  
It's you

#### CHORUS

You can never ever say I aint gave my love,  
You can never say I don't care,  
Since the beginning I've been here, I aint changed my love,  
Regardless of what you may feel,  
Us breaking up today would be a shame my love,  
But baby its such a good idea,  
But you won't show me that you appreciate my love,  
I had to say goodbye my dear.

My dear my dear...Say goodbye my dear...

I'm packin up boy I gotta leave,  
Gave you my heart and my soul, my everything,  
Spent so much time in the streets,  
You lied, you creeped,  
And I stayed here with you.  
Dont wanna do this to my family,  
They wanna see us together, living happily,  
But you are so unfair, you showed no care,  
And thats why I am through  
All the pain,  
All these years,  
I hate to walk away,  
But I gotta say goodbye my dear,  
I'm so done wit you boy.

#### CHORUS

You can never ever say I ain't gave my love,  
You can never say I don't care,  
Since the beginning I've been here, I aint changed my love,  
Regardless of what you may feel,

Us breaking up today would be a shame my love,  
But u make its such a good idea,  
But you won't show me that you appreciate my love,  
I had to say goodbye my dear.

My dear my dear...Say goodbye my dear...

We've been going through this so long,  
And you don't listen to me so now I'm showing you,  
Everytime I'm gone you miss me more  
than you think you will  
and now nigga thought of you  
all that I am here  
all the years I've been doin you  
lookin how we're near  
then what you got me going through

She says I ain't doin nothing  
but you

I'ma let you have yo shit  
Better stop tryin me  
I'ma  
I mean no harm

She got a hold of my heart though

CHORUS

You can never ever say I ain't gave my love,  
You can never say I don't care,  
Since the beginning I've been here, I aint changed my  
love,  
Regardless of what you may feel,  
Us breaking up today would be a shame my love,  
But you make it such a good idea,  
But you won't show me that you appreciate my love,  
I had to say goodbye my dear.

My dear my dear...Say goodbye my dear...

First we fuss and we fight and we break up  
then we kiss and make love and we make up  
Do this over and over but no more
