"My Little Baby"

Visit "[My Little Baby](#)" on MotoLyrics.com

Where did you go my little baby
Where did you go my little baby
Where did you go my little baby
From here, from here *
Walking down the streets like a mad hatter
Lunacy's back but does it really matter
Watch out my man, my lady's coming
back to me ***
If your sting was like a bee
Would you die only for me
If you go across the sea
Would you come back to me ***
Deception dissolves like a mind rainbow
Sunset was dumped dark inside my bedroom
Barracuda blue, won't you give
my baby to me ***
*Repeat
If you go across the sea
Would you come back to me
If your sting was like a bee
Would you die only for me
**Repeat
***Repeat
****Repeat
Where did you go my little baby
