"See You Tomorrow"

Visit "[See You Tomorrow](#)" on MotoLyrics.com

Animals and fascist kind attack the world and sell their
crime, starve the children kill the poor, i've never seen
what they're good for, practice sickness, practice lies,
practice imitating vice, feed your wallet not your head,
remember man that god is dead, i'll see you tomorrow
and you'll still feel the pain, i'll see you tomorrow does
nothing ever change? governments of mind not men,
divide the world and hem us in, images of future black,
you think i care who's coming back? policies of death
begin, your children suffer for your sins, ignorance
and open hate, we reap the seed that we create, i'll see
you tomorrow, and you'll still feel the pain, i'll see you
tomorrow does nothing ever change? i'll see you
tomorrow 'cause you mean more to me, i'll see you
tomorrow oh you silly thing, the government of man
and the politics of evil, government of man and the
politics of evil, government of man and the politics
of...evil destruction and world evolution, total
corruption and world revolution, you say vicious, i say
charming what the fuck let's have a party, war machine
and c.i.a your eyes are dimmed more everyday, love
your t.v., hate your mind see your fears materialize,
lose your children, lose your time, love the things that
keep you blind, i'll see you tomorrow, and you'll still
feel the pain, i'll see you tomorrow does nothing ever
change? i'll see you tomorrow 'cause you mean more
to me i'll see you tomorrow oh you silly thing
