Man with a suitcase walking down my street, tells me  
i'm a punk 'cause i hate my government, learn what  
you can. don't you do what the fools say, save your  
breath for a cigarette old man, you gonna just stay  
brainless, not so serious? look to the past, through the  
window that rolls down down to the jungle of the  
suffereng victims, let's make a bomb before feeding  
our children, let's have a war now, come on old man  
you just gonna stay brainless, not so serious? vote  
what you want, but the monster is replaced, say what  
you will, but the look is on your face, learn what you  
can, don't you do what the rules say, love your country,  
hate your government, you gonna just stay brainless,  
not so serious?
