But she's a freak though)  
She's got angel eyes  
With the baby face  
(But she's a freak though)  
I want my mama and daddy to meet her  
Maybe have my baby  
Man (but she's a freak though)  
They keep talking about you because they  
Can't keep up with your pace  
(Hey) your my  
Super freak  
Super freak  
Your my  
Super freak

My mama taught me  
Everything fine aint the finest  
And everything that shine aint a diamond  
They say change come with time and I'm finding that  
most bitches take your kindness for blindness  
Yeah it feel good laying here beside you  
Digging deep all 9 up inside you  
But we can't kick it  
Out in public gotta hide you  
'Cause all my partners in the hood done tried you  
It's true that you can't turn a hoe into a housewife  
Well listen shorty maybe I don't want a housewife  
They say that you a freak I'm thinking that they bout  
right  
Because that pussy so good  
And your mouth tight  
A pretty face  
Slim waist  
And a stout nice  
Juicy ass that them niggas in the south like  
She's super sexy  
Got a nigga thinking bout a wife  
Wearing all white  
Being with her for life

The main thing making niggas judge you

Is the same thing that make me wanna love you  
From the smell of your hair I wanna hug you  
To the way you yell give it to me wanna fuck you  
Plus you aint trippin off a nigga 'cause he thuggin  
That's why I'm twice as happy this relationship is so  
buzzin  
But my partner say you trickin with his cousin  
But nevermind I don't listen they be buggin  
They find it hard to understand how the tip love  
This gurl when I'm in and out stip clubs  
Maybe 'cause tip loves leave em with gurls  
And in the morning they be wakin up with 6 gurls  
They don't know we more like homies when we pick  
gurls  
Why he worried bout it he aint gotta make it his gurl  
Fuck what he think about you  
I think you the shit girl  
Make me wanna bring another kid in the world

Now I've been told every nigga in the streets know she  
nothing but a freak hoe  
But when I look in them pretty eyes I don't see it though  
Now she done shown me some shit that I aint see  
before  
But what we do behind closed doors is for me to know  
All in all I decided ima keep her tho  
I'm a fuckin grown man what I'm creepin for  
Just try me by the 4, that what I'm totin heaters fo  
I die about her for a real good reason though  
This how I feel let my partners and my mama know  
Keep it real all the disrespect has gotta go  
I just respect that she a selfish she don't hide it  
Though she may have been a tad misguided  
All she need is a little affection  
A lot a direction  
A nigga with a constant erection  
And I done wasted plenty time contemplating second  
guessing procrastinating  
I wanna buy a ring and pop the question...
