-- Spanish Midnight

you've got to jive, jive
to stay alive

I'm a silver stud
I hear your sticking up my heart
everything I do, I do for you
I'm a silver stud
I'm gonna stick it up in my heart
everything I do, I do for you

you've got to jive, jive
to stay alive

I'm a silver stud
I'm gonna stick it up my heart
everything I do, I do for you
(2X)

Spanish midnight,
all I want to do is love you tonight
4X
One more time.....

(note -- back in the mid-70's, "jive" often meant "agree with"
so this song takes on none of the meaning
we probably instantly assume it does in the 1990's)
