This is for the girls who get tipsy
But never get too drunk
This is for the girls who dance sexy
But never show too much

This is for the girls who get tipsy
But never get too drunk
This is for the girls who dance sexy
But never show too
Stop!

Justin Timberlake
Said If I talk sh!t to you
Would you it talk back to me too, baby
If I wanna dance with you
Would you wanna groove with me too, baby?

Cause we can court it up all night night long girl
It ain't nothin' to court yeah baby
Cause we can court it up all night night long girl
It ain't nothin' to court yah baby

Arrive on set, I'm so fresh
Immediately getting the other guys upset
So fly that I ain't gotta buy no jet
That's how I get their minds on sex
Make chicks sweat, literally get
They self so hot and their their thighs so wet
And I don't chase no I don't stress
Any girl I want, know that I'm gone get
I can catch Juliet, don't need no net
Plenty fish in the sea, baby please know that
And the dude that you with, baby he's no threat
His stacks on e, my g's on deck
What you want you recieve,
What you need you get,
Just give me one shot like Russian roulette
I must confess, I am obsessed
Just gotta get up under her dress

Hey miss lady, lets say maybe
we leave this place and go crazy
Get sh!t faced, and get x-rated
Take turn gettin' our faces decorated
Cum 'till your body gets numb
Have you hyper ventilatin'
Make you cum 'till you can't take it
Really
I just wanna give you that feelin'
Lookin' at you make me wanna spend a few shillin'
Have a few children,
Imagine me behind you drillin'
Till you pass out through dillin'
Girl God willin'imma make you click on all cylinders
Scream like I'm killin' her
Bust off once, I'm still in her
Go soft, oh no I didn't sir,
Come with me and you gettin' served,
All night 'till your muscles tighten and your vision ..
blurred

I got something for you,
I hope you're ready, cause you gone get it,
(boy talk to me)

Once i get them jeans off you,
And get you naked, I hope you can take it
(boy talk to me)
From the front, from the back, give it to me, throw it
back
Don't run from it, aint this what you wanted?
(boy talk to me)
On the bottom, on the top, I won't stop until you pop
Girl work it, don't you like it dirty?
(now bring the hook back)
