I'm working here, you know what I'm saying  
Try to put yourself in my shoes for a second  
It's not personal I'm just sayin' though

Look from when the moon came out till the sun came  
up  
I was supplyin' the days with what they flame up  
Our mamas passing by, trying to explain us  
Pissing in the bushes like they never house trained us

But, try to understand that's how we came up  
You get to know us, you'll love us but you can't change  
us  
Really we rather be rich and famous  
But in the mean time were forced to slang dust

'Dro or crack cocaine, penicillin to rogain  
Ecstasy, Viagra, whatever'll get the dough mayne  
I'm tired of people misrepresenting my dough mayne  
Oh you think we out here killing for nothing, hustling  
For no gains picture that

Hey man I'm just doing my job  
Hey lady, don't mind me I'm just doing my job  
I don't wanna make your life more harder, I'm just doin'  
my job  
You live here, I work here I'm doing my job

I don't know if you don't know, don't care or can't see  
Every time something up in the hood, it ain't me  
And I ain't always up to no good and on the creep  
And ye' ain't always gotta pass through  
The hood without speaking how you doing

We ain't out here threatening your lives, raping your  
children  
We just out here staying alive, making a lil' bit you  
know  
Working hard, trying to survive chasing a billion  
You hear us talking loud, just think of us as chameleons

Adaptin' to situations, but accusations is still there

And robbing your house, now you just hurting my  
feelings man  
We got lives, we wanna live nice too  
We got moms, dads, wives, kids just like you

But our options are fewer, it's hell in high school  
When your helping with the rent lights and the gas bill  
too  
So before you go judging us loving us won't hurt  
If you're under 25, staying alive is hard work

Hey man I'm just doing my job  
Hey lady, don't mind me I'm just doing my job  
I don't wanna make your life more harder, I'm just doin'  
my job  
You live here, I work here I'm doing my job

And for you to see what I'm saying, open eyes would  
help  
If you could think about somebody besides yourself  
Why you pointing fingers at me, analyze yourself  
Quit all that chastising and try to provide some help

Instead of calling the law, and busting my balls  
With all due respect, we don't even be fucking with y'all  
man  
And we can't help it 'cause it is like this  
We don't like it no more than you that we live like this

Always, stuck in the grind, from summertime to  
wintertime  
Cut school, and sell fifty dimes by dinner time  
See everything we know we learned from the streets  
Since thirteen I've been hustling and earning my keep

Hey man I'm just doing my job  
Hey lady, don't mind me I'm just doing my job  
I don't wanna make your life more harder, I'm just doin'  
my job  
You live here, I work here I'm doing my job
