(mary j. blige chorus)

Don't forget to remember me
Don't forget (get get) to remember me (x2)
Please keep me in your heart
If we ever have to part
Don't forget (get get) to remember me

(t.i. verse 1)

Ey the king modern day MLK ?
I'm officially the freshest don't dare forget
I'm gone, momentarily don't bear me yet
Like ali got I got title back prepare for dat
When the world needed tip
Ask where he was it
But where he need something back
Nigga fade to black
Talking shit behind his back
You a hater for that
I'm don't expect nothing less
In the game with chess you think 5 moves ahead and
not behind
Niggas jumped up cheered when I got my time
Like yeah, one whole year I got in the grind
But get me losing off your mind
Shorty may I remind you
That there aint another nigga who done been through
what I been through
Time aftter time again you better get some ? in you
When you said it was over for him and you thought he
couldn't continue to floss
Heres to your memory loss
Suckkka

(mary j. blige chorus)

Don't forget (get get) to remember me (x3)
Please keep me in your heart
If we ever have to part
Don't forget forget to remember me

(t.i. verse 2)

They say out of sight is out of mind
And 9 times out of 10 me and (out of pocket out of line)
?
You do it big everybody that you out shined

Then your old lady fate talk about how he got fine
She say she trying to get away
He say about time
Right now we all thinking damn hope it not mine
But when its lights out for you and you locked down
Aint not telling whether or not your lady when and got
down
With that nigga ? town cause he hot now
Ripping up your love letters, lifting up her night gown
Right now somebody baby moma gettin piped down
Kids in the next room listening, ima pipe down
The thought hurt don't it
But maybe she strong enough for aint get that lonely
cause you wasn't gone long enough
True
Its just a temporarily setback
Its on when I get back
Please don't forget dat

(mary j. blige chorus)

Don't forget to remember me
Don't forget (please don't) to remember me
Please keep me in your heart
If we ever have to part
Don't forget (get get) to remember me

(mary j. blige verse 1)

I don't mean to feel like this
Don't mean to think like this
My heart just has to be shown
That the love that I give to you
That's the love that I get from you
I need to be safe and secure
Don't forget don't forget to remember me
Please remember me
Everything I bring to this love love
Please keep me in your heart
If we ever have to part
Don't forget (get) to remember me

Don't you ... forget about me
