you wanna be high. Promise you'll never say bye to me,

[VERSE I:]

The bucket's on tilt, truck is on stilts i did another deal
today, at least a couple
mil'. Naw i'm askin you to chill, wanna pat that down I'm
tryin to pick you up and never put
your ass back down. get rid of all your worries, why you
draggin that around? Here part one of
these and now pass that around. Fire it up, take a shot,
now your ass in the clouds. Gotta bend
ya over, throw your ass back down. No need sayin no.
we way pass that now. I aint them other
niggas, just control the flashback now. Make three
wishes, you can have that now. Fuck the
finacin', payin cash right now. miracle man, make your
dreams come true. Take a ride, get high,
bout time you come too. Bet ya life done changed, ya
likin my last name Done had a couple
babies, wit a Bentley and a Range. Crib on the water,
eatin meals on the plane And ya ilfe in
the sky like you lived on a plane. So much good shit to
fill ya brain, Make the bad seem
strange, it's a sayin'

[CHORUS]

[VERSE II:]

You see me chillin' out, kickin back in the ride, Wit fly
broad on the passenger
side. Got a nice smile and immaculate eyes. fore' she
get inside, she dont have to decide.

Cause she can have it like she want it, we can do it like

that. And i went and threw it to her
and she threw it right back. She say nobody gave it to
her like that, Hit it from the back, I
figure you would like that. Her head and tight pussy
good like that And damn she aint even from
the hood like that So she probably never kicked it wit a
cool nigga Other niggas had her, didnt
know what to do wit her. Intimidated by her face and
her cute figure. Cause her waist real
small but her ass way bigger Don't she know that if i
want her, I aint finna play wit her. All
i gotta do is spend a day wit her

[CHORUS]

[VERSE III:]

Hey what it is, pretty girl, would you like to come and
kick it wit a nigga for a
night or two And you can take your clothes off if you
like to. And it dont matter 'bout the
cost if i like you i just do it shawty, I aint gotta try t. Bust
a move, bet ya I can set a
fire in you. me chase round behind you? Why boo? i'm
like you, you know you fly, but i'm fly
too. you know how to do it, alwayz ride good. Match the
paint wit the wheels, wit the trunk and the
hood. You dealin' wit a real nigga, get it understood.
I'm still from the hood, even when in
Hollywood. Wit my beat down low and my top let back
You lookin' for a G. well you got just that
Well i can be a King and you can be my princess Baby
all you gotta do is say yes.
