40 cal in a tech f**k around and get wet
you better hit the deck when the king on set
hey hey we got them G'z on deck
hey and hit the deck when the king on set

(T.I.)

slap a slug on me mac 11 in the bubble coat

hey first you tried to tell em homie hatas ay what you

cause once we start to let em go yo ass they gon' be

never been a pussy so i don't know what they yellin
screamin fussin
cause he pushin fo
i aint fen to talk let em walk like it's all good
catch him slippin in the parkin lot and then it's all good
got a couple blocks and a mask in the glove box
he come out the club and his ass get seen
now i'm linked out the window with the beam on set
made up my mind imma kill him when i see him no
sweat
make a bet i aint gon put his monkey ass on a shelf
and i don't need nobody help cause i can do this shit
myself
in a triple black chevy ride low key step
i hope this nigga ready cause he gon see death
