(Chorus)x2

Hey let em talk, Let em hate  
It aint my fault they at the bottom, let em stay  
Let em say whatever. Let em lie  
Let em snitch, let em bleed, let em die

(T.I.)

Been through whatever together  
I mean whatever the case  
My partnas tell on me, never  
We'll do whatever it take  
Had no idea in the world  
When we was caddlin' yay  
That we'd be on top of the world  
And still be together today  
Man all we got is eachother  
This barn aint never could break  
You know they say never say never  
Well I say never today  
Don't care whatever the charge  
Be it Federal or State  
Don't care whoever the broad  
And he made whatever mistake  
No talking down on the squad  
Just know whatever you say  
You would be straighten my nigga??  
Check you right there in your face  
I hear you hatin on my nigga  
Well Ima tell him you hate  
Came in the gates wit my niggas  
And dats right where Ima stay  
Don't matter what the conditions dat he run in wit police  
We there the day that he sentenced  
Be there the day he released  
And all the days in between  
You get whatever from me  
Take care of the house and the kids  
And girl she get whatever she needs.
