Verse 3- T.I.

Catch me in an old school, new school vert drop, hard
top
See me and at least two freaks pulled over in a parking
lot
Engaged in conversation rolling listening to the radio
Give it to em rough they say but treat em like a lady
though
She never kissed a girl before but fantasized about
girls before
Imagined having sex with women just don't want the
world to know

I'm talking fast cars, bright lights, big city, long nights,
pretty women on site I give it to em all night

Bridge- The Dream

Ooh baby
hey baby girl..
All you gotta do is call me when you need me baby
All I need is you
All you need is me
Let me free your little body and take you into ecstasy

Chorus- The Dream

Bright lights..
Rolling through the city in that M6
Every other radio station playing myâ€¦. Ooooâ€¦..
In a minute she gone be right up on myâ€¦!â€¦!
And Look at you..
She ain't had none in a minute so I'm really fixin to put
it on youâ€¦!
