[Chorus]

(And thats the way that you want it)

This how you want it

It's like that,

It's all good I'll be right back,

Thats how you see it,

thats what it is,

this how you feel,

guess it is what it is (x2)

[TI Verse 1]

After careful consideration I've concluded tribulations

make you great if you're willing to go through it,

they can hate all they want

but in the end whatever God intends to be will be so put

your trust in He and not the hearts of men

we often question adversity's purpose stressin'

not recognizin' the blessin' often missin' the message

who'da thought I'd emerge from the ruins and the

wreckage even better than I was before the automatic

weapons

the lesson I took away made my testimony compellin'

enough to leave an impression on strugglin'

adolescents

who nobody invested put forth the effort or took a

second to push it to do their best and promote forward

progression

statistically destined to be arrested

shot in a second

that hopelessness leads to depression

they disguise as aggression

tell the federal felon pressin' to earn his way into

heaven

show up or show 'em confessions and opportunities

present

potential is mental your destiny is in your possession

ambition and education is first and talent is second

you get what you can envision if puttin' me in prison

more important than keepin' them out I respect your

decision

[Chorus]

[Verse 2]

After the back and forth and you constantly asking for  
more  
child support I ask what for and you take me back to  
court, now  
I'm in a public tug-o-war for dough I struggle for,  
I owe money for my sons, honey, and nothin' more  
do much more than average for my sons that's just  
ignoring facts  
you can get off ya ass and work you don't wanna be f-  
ckin' poor, that's not quite the issue is it?  
it's that we don't f-ck no more,  
that's 'sposed to be you who buyin' houses pickin' out  
the car,  
that's 'sposed to be you in benz's, bentley's, fendi and  
dior that's  
your problem just accept it you and I are never more  
and forever we never will just try your best to deal  
[The Way You Want It Lyrics On ]

I rolled around with you for years and I regret it still  
and well since you ain't let yourself know,  
you look a mess just let yourself go I guess  
they say misery love guest, but frankly I'm too blessed  
to walk around frowning looking all depressed  
where your self respect to get yourself in check  
you disgraced women who work need to put yourself in  
check  
I kept it to myself just cuz I felt it wasn't fair  
but now I'm pissed to the point I don't care, so there!
