Fallow drama

I'm listening for the fruit to fall, love

Baked in the footlight

Some buttermilk free love cult

Lady or the tiger

Our runaway summertime hit

Slather me with butter

Ring around the world ash pit

Out in the wide net

Skank and the owlkin

Know not where

Their next meal

Is coming from

Airliner fallopian juke

Open up wide

I'll lift you up

Tiger tail

And I just can't let it go
