

## Deerhoof "X-Mas Trees"

Visit "[X-Mas Trees](#)" on MotoLyrics.com

When I was a girl  
Crawling up the world  
Little by little

Travelling so far  
Moving through the stars  
Little by little

When your hands are free  
Someone feed my Christmas Tree

On the top I see  
World is blessing me  
Little by little

Wondering what's down  
The corner going 'round  
Little by little

When your hands are free  
Someone feed my Christmas Tree

Now I've gotten old  
The sky is growing cold  
Little by little

Will they stop the world  
Now unto this girl  
Little by little

First of January  
It is simply  
Little by little
