All my dreams became reality  
From the first day that our love came to be  
And all the pain disappeared from sight  
I want you more and more  
I need you day and night

Then Came You  
Then Came You

There was no time when not a day was hard to face  
Cause in my heart there was an empty space  
A feeling of needing someone here next to me  
How could you tell girl, how could you see  
That I had waited for a girl like you  
To give me the love that I never knew  
You took me by the hand and made me understand  
You wanted me to be your only man

Chorus:

Then came you  
All my dreams became reality, then came you  
From the first day that our love came to be, then came  
you  
All of the pain disappeared from sight, then came you  
I want you more and more  
I need you day and night, then came you

You know baby  
Instead of a false love  
You were my only true love

There's just so much more that I want to say  
Sometimes emotions get in the way  
You can be sure your heart is safe in my hands  
I ask no questions, I make no demands  
Just come along with me and baby you will see  
That this is the way love's supposed to be  
All these words I say are true  
My life was empty girl, then came you

Chorus (2x)

Man I've had it up to here and I'm fed up  
I search here and there, yo don't let up  
Mama told me there'd be days like this  
You put your love on the line and like to take risks  
Colorblind, trying to find a new heart  
My hearts broken and drained, you need a jumpstart  
Looking for love, a love so true  
My life was empty and then came you

Girl my life was empty  
You know that much was true  
And I was searching for true love  
Then came you

Chorus (2x)
