Two weeks
of misery
Capture my heart
and destroy me
Destroy my mind
and my body
Invade like a disease
and conquer me

My wild exchange
could not believe
I know I can't
stop breathing
I've seen the light
I want to see
I hold the hand
that beckoned

Do you believe
in love at first sight?
Oh yes my son
I did the first time
Oh yes my son
I did the before I died
And now it does me no good
here on the other side

I know my ways
when other phase
A cold embrace
then all is waste
'til I can find a new escape
Reborn again
in some other place
