Process starting, ready to go  
When the toolbar starts to bleed  
Take control with virtual greed

This is the game I like to play  
A simulator in my own way

Famine in magnetic fields  
Make grow people just to kill  
Conquer lands, reach your goal  
With violent software waste 'em all

This is the game I like to play  
A simulator in my own way

System failure  
Death simulator  
System failure  
For my pleasure

Nekr-o-matik  
Automatic  
Nekr-o-matik  
Nekr-o-matik

Ancient bytes of divine rage  
Send them back in body bags  
When rubber cherubs fall from grace  
Congrats you reached the bonus stage!

Painting pictures of agony on the desktop  
Game delirium in graphic martyrrium  
Mixing colours on their skins  
Chain reactions of victims  
Underneath green acid skies  
Ecological disaster  
Many people die

This is the game I like to play  
A simulator in my own way
