"Videodrone"

Visit "[Videodrone](#)" on MotoLyrics.com

Lunga vita alla nuova carne

Long live the new flesh
Resurrection, life and death
It's the brood beneath your skin
The videotape you hold within

Rabid mutants around you
Take your gun, c'mon shoot!
I won't pay the price
For the secrets I hide

Tear your body, change your shape
Corrode your flesh, your D.N.A.

Long live the new flesh
Crash and burn every cell
TV tuned, change your skin
The date expired when
The spider starts to make his web
Around your lung around your neck
Plastic implant, human fly
Metamorphosis device

Something is digging in your mind
Creeping madness you can't hide
Something is digging in your eyes
It lives inside your mind
