Sin!

Dilithium crystals is what I need

Kneel!

To start up my war machine

Unholy hailing frequencies

Spreading the destruction's seed

Antimatter injectors

Putrified manifold

Pain!

Exploring my dead worlds remains

Hell!

Infernal screams, blaspheme mind meld

Wormhole is opening

A travel to the scars begins

Sensors show no signs of life

Darker suns and worlds collide

Green alert

I'm coming

Exploding

Fragments through a million silent stars

Beware when lights turn green

Useless phasers on my skin

I disrupt the tractor beam

Reaching the maximum speed

Beware when lights turn green

Beam me up into your realm

Weapons from paradise

You don't need no your cloaking device

Sin!

The universe in under siege

Kneel!

No need to raise the deflector shields

Pain!

Won't see no more the light of day

When!

The warp core lies in decay
