"And Death Can Love"

And death can love you
So praise your fatal end
The finish of existance
Award from heavens send

Future hates and suffers
Illusion world in lies
Return to me from them
As death's love dies

She will cast the sleep
Rest forever in her hands
Prejudices of fear
Incinerates last breath

Memorize your sorrows
Erase them with my help
Such a gental touch
Make my hell your hell

Neither rest nor game
Play with me in love
Don't forget my words
I'm your second half

She will cast the sleep
Rest forever in her hands
Prejudices of fear
Incinerates last breath
