(Play it again, Wern)

Thanks a million, a million thanks to you
For everything that love could bring, you brought me
Each tender love word you happened to say
Is hidden away
In memory's bouquet

Thanks a million, for I remember too
The tenderness that your caress has taught me
You made a million dreams come true
And so I'm saying
Thanks a million
(Thanks a million to you, Wern)
(To you Fran for the sound, Ray for the bass, Lena for I
Should Care)
(And David Parker for making this record possible)
(Thanks a million)
