Your guilty i see you looking at me do you wan't to see
the after show
And i'm trying to get us out of you to finally know where
this will go

My head is screaming hate, shame god hope i get out
of this alive i, pray god help me get out of this

I'm guilty i blame the shield of dreams the fool you'd
think i get away and your tired i bet you never
Thought the land that you bought would end this way

My head is screaming hate, shame god hope i get out
of this alive lost, grave god hope i get out of this
Alive fault, blame god hope i get out of this alive i, pray
god help me get out of this alive

Hate, shame god hope i get out of this alive lost, grave
god hope i get out of this alive fault, blame
God hope i get out of this alive i, pray god help me get
out of this
