Please don't talk about it just leave it alone
What you need is too much for me you can't squeeze
blood from stone but there you go

I can't win with or without you i don't know why, i don't
know why
I can't win with or without you but still i tried, still i tried

What were you before me how was i to know
When you take you always break
And i wont give no more
So there you go

I can't win with or without you
I don't know why, i don't know why
I can't win with or without you but still i tried, still i tried

Maybe i'm lone, maybe i'm way out of line. i lie to
myself all the time. i should have been gone, so long
Ago. would anyone else have known.

I can?t win with or without you
I don't know why, i don't know why
I can?t win with or without you but still i tried, still i

I can?t win with or without you don't know why, i don't
know why
I can?t win with or without you but still i tried, still i tried
