"The Memory Will Never Die"

Visit "[The Memory Will Never Die](#)" on MotoLyrics.com

I whisper in your ear the words you want to hear / You
feel the wind and it reminds you / it happens everytime
you stop and close your eyes / you can't deny what
lives inside you / well i know it's hard to see / what is
meant to be when yesterday is so far behind you /

Deep inside your soul i'm always there /

You made me believe the day you surrendered to me /
the memory will never die / the love that you gave i'll
never throw it away / the memory will never die /

The ties take a turn / another lesson learned / i'm right
here but still you wonder / would you say that you need
more and it's known / it was before you were on your
own and going under /

Deep inside your soul i'm always there /

You made me believe the day you surrendered to me /
the memory will never die / the love that you gave i'll
never throw it away / the memory will never die /

Whenever you wake up / whenever you gave up all that
you had for nothing at all / the bed that you lay in
remember you made it / and nobodys there to catch
you when you fall

You made me believe the day you surrendered to me /
the memory will never die / the love that you gave i'll
never throw it away / the memory will never die /

You made me believe the day you surrendered to me /
the memory will never die / the love that you gave i'll
never throw it away / the memory will never die
