In bitterness and repugnance  
I've passed the point of no return...

Reborn in infamy  
Feeding my new found lust  
Vigor increases with  
Each stab I execute

No signs of sympathy,  
Compassion for their screams  
As I sever their heads  
Joy returns to my life...

Drilling holes into skulls of the living  
Corrosive substance injected cerebrally  
Privileged to witness unkown mysteries  
Victims awake in a state zombified

Inhaling the odours of composted flesh  
Halfway dissolved in acid, hands and genitals  
mummified

Experimenting with forms of persecution  
Identifying the source of my excitement  
Frustration and discontent, a stony path

Suddenly - the answer's clear  
My deeds - shall now be seen  
Spewing - back at them publicly  
The mental torture they have induced to me

My vision of bliss becoming reality  
As I walk through the crowd  
One fierce impulse takes control  
Chopping into this terrified mass of flesh

(How many will I be able to take with me?)

Fetus punctured  
Trough the womb  
Decollated

Sputtering stumps painting the streets

Vigor stays  
Undiminished  
As I butcher  
Dozens more

Suddenly blackness surrounds  
My demise I have calculated, expected, desired
