She gives me
All she has to give
She lets me know
With just one kiss
She plays the game
Like no one else
She won
Yeah, she won

I've never felt like this before
Can't get enough
I want more
She steals the life
Right out of me
She's gone
Now, she's gone

Look she's running
While I'm drowning
Don't save me
If I'm wading

(chorus)
Her love comes and goes
Before you know it
Just like a fire
She'll leave you helpless
She lifts you up
And let you down
Her love comes and goes away

It hurts so bad
That I can't sleep
I tell myself
She still wants me
She leaves me here
All by myself
Alone, all alone

Look she's running

While I'm drowning

Don't save me
If I'm wading

Her love comes and goes
Before you know it
Just like a fire
She'll leave you helpless
She lifts you up
And let you down
Her love comes and goes away
(comes and goes away)

I want the life I had
Before I knew you
I wish I knew a way
To turn back time
If only you would stay
Another world away
The maybe I could find
Someone not like you
Not like you

Her love comes and goes
Before you know it
Just like a fire
She'll leave you helpless
She lifts you up
And let you down
Her love comes and goes away

She always
Comes and goes away
She always
Comes and goes away
