"Contagion"

Visit "[Contagion](#)" on MotoLyrics.com

Your thoughts are abducted
By the shit that others talk
Failing to express your own ideas
Take a fucken walk
Living by what others say
They become an influence
Can't think straight 'cause you're afraid
Stupid people easy to convince
Doing things you wouldn't do
You're a follower you don't care
Try to think and be yourself
You're a clone you wouldn't dare
You want someone to look up to
You want all your problems solved
Others take advantage of you
Serves your right for getting involved
Living by what others say
They become an influence
Can't think straight 'cause you're afraid
Stupid people easy to convince
Doing things you wouldn't do
You're a follower you don't care
Try to think and be yourself
You're a clone you wouldn't dare
You want someone to look up to
You want all your problems solved
Others take advantage of you
Serves your right for getting involved
