Please don't talk about it, just leave it alone
What you need is too much for me
You can't squeeze blood from a stone but there you go

I can't win with or without you
I don't know why, I don't know why
I can't win with or without you
But still I try, still I try

What were you before me how was I to know
When you take you always break
And I won't give no more, so there you go

I can't win with or without you
I don't know why, I don't know why
I can't win with or without you
But still I try, still I try

Maybe I'm wrong, maybe I'm way out of line
I lie to myself all the time
I should have been gone, so long ago
Would anyone else have known?

I can't win with or without you
I don't know why, I don't know why
I can't win with or without you
But still I try, still I

I can't win with or without you
I don't know why, I don't know why
I can't win or without you
But still I try, still I try
