A world without you here  
An unreflecting mirror  
His words were so sincere  
He left you standing there

Oh, I'll never let you down  
While I'm still around

His words were never meant  
Your one last tear's been spent  
You'll never be content  
In a world as big as this

Oh, I'll never let you down  
While I'm still around

When you were lost  
Who was it, who found you?  
When you were lost  
Who was it, who found you?

Oh, I'll never let you down  
While I'm still around  
Oh, you've just been found  
Oh, I'll never let you down
