No place on this earth to find a place of peace
But in the earth itself
On my quest, conflicts with others on beliefs
Of how death is to be
To calm the mind... at the time of death,
A better place we'll go
Once a part of the earth, soon to be another
Scrutiny
Looking for an answer, looking for a reason
Why must we conflict until all is destroyed
Is it meant to be or exterminate the legion?
I wish wed work it out, it's getting me annoyed
How much longer can we survive as man thrives off
Power and supremacy
Looking for an answer, looking for a reason
Why must we conflict until all destroyed
Is it meant to be or exterminate the legion?
I wish wed work it out, it's getting me annoyed
Looking for an answer, looking for a reason
Why must we conflict until all destroyed
Is it meant to be or exterminate the legion?
I wish wed work it out, it's getting me annoyed
How much longer can we survive as man thrives off
Power and supremacy
Created by the earth now trying to overcome
Man unrelenting to yield a we ever toward
Our own destruction
As we die again we become the earth, where will
Our own destruction
As we die again we become the earth, where will
We go when it's destroyed???
Scrutiny ...
