"Side Effects"

Visit "[Side Effects](#)" on MotoLyrics.com

The possibilities are unpredictable
With the continuous use of impurity
How could this be contained
With the negligence of authorities
Tainted world loss of purity
Pollution, contamination with durability
Fucked up food and fucked up water
Chemicals, by-products impossible to alter
Contaminated by industrial wastes
Consequences must await
Contamination to our bodies
Defiling human qualities
Not hard to contradict-that
Bodily harm we will afflict
Contaminated by industrial wastes
Consequences must await
Contamination to our bodies
Defiling human qualities
Not hard to contradict-that
Bodily harm we will afflict
