Young girl, you're the type I need  
Baby you should know you're the one that I see  
Everything about you is the way that I like  
We can do it, baby, anytime of the night

Let's just sit down and you always go right  
Even when we tired girl you wanna go twice  
I just wanna tell you you're the one that I need  
Baby you're the one, only one for me

And when we get to motion, uh, in the ocean  
We keep it going, kee-keep it going  
I feel the love strength feel emotion  
And I've just gotta tell you one more time

You're the best damn girl in the whole wide world  
Baby you're the best in the whole wide world  
You're the only one that I'm ever gonna need  
Baby you're the one, only one for me

You're the best damn girl in the whole wide world  
Baby you're the best in the whole wide world  
You're the only one that I'm ever gonna need  
Baby you're the one, only one for me

The best damn girl I've ever seen in my life  
Everytime I look at you I'm proud that you're mine  
You've just got the shape, just the shape that I like  
Everything about you's got me feeling alright

Though I know that we can do it, baby, all night  
We can make love anytime that you like  
I just wanna tell you you're the one that I need  
Baby you're the one, only one for me

And when we get to motion, uh, in the ocean  
We keep it going, kee-keep it going  
I feel the love strength feel emotion  
And I've just gotta tell you one more time

You're the best damn girl in the whole wide world

Baby you're the best in the whole wide world  
You're the only one that I'm gonna need  
Baby you're the one, only one for me

You're the best damn girl in the whole wide world  
Baby you're the best in the whole wide world  
You're the only one that I'm ever gonna need  
Baby you're the one, only one for me

Best damn girl  
Check your nail momma, you are the bestest  
And I love the way that we dress the freshest  
You in the passenger, I'm driving in the R8  
Bumping that brand new shizzle by the arcade  
And I'm hard-laid, ever shy baby  
That's why I say it looking at you in your eyes baby  
I got the vehicle, let's take it for a ride baby  
Now listen one more time

You're the best damn girl in the whole wide world  
Baby you're the best in the whole wide world  
You're the only one that I'm ever gonna need  
Baby you're the one, only one for me

You're the best damn girl in the whole wide world  
Baby you're the best in the whole wide world  
You're the only one that I'm ever gonna need  
Baby you're the one, only one for me
