Ah ah ah aha ah  
Ah aha aha

I can't hear when you stay to mine  
So get down in the next divine  
So let's get this pumpin  
Bout time we started something  
Well someone in here just turn it up  
Turn up that..  
Body shaking and we like it like that  
'Cause this party is too cold  
This... is out of control  
Well someone in here just turn it up  
Dj cause in the check a baseline to break you back  
Oh no second... right now this club incision  
Well someone in here just turn it up

Chorus:

I can't to feel your body heat  
So turn on over he go speakers to the speakers go  
Get so hot I'm so hot  
And we gonna need no water somebody say hey  
I can't, I can't feel your body heat  
So gonan over heat oh speaker  
To the speaker go  
Get so hot, I'm so hot  
And need no water  
Somebody gonna say hey

Right now stop the track  
Okay bring it back  
'Cause we need this music and don't you dare refuse ti  
There's someone in here just turn it up  
This party here to yours  
... in the cross to floor  
Ah, and it's causing friction  
It's like we're on a mission  
To get up in here and turn it up

I know you're feeling me  
... damn it's plenty to see

Hey no mistaken shaking like new jamaican  
There's someone in here  
Le'ts turn it up

[Chorus:]

We just came to dance and I just wanan feel your body  
heat  
Up against me  
We don't give a damn all I wanan do is be right here  
with you  
Dance

Step in the floor no feel no...  
Gonan feel... with the sexy eyes  
Then I look around to see it all with me  
'Cause I'm... the pressure here with me  
So when the dawn... shake your... baby... make me...  
take my... big change  
Everybody... get me feelin  
I can feel your groove deep in your...  
Make you feel your touch  
'Cause I knwo...

[Chorus:]

I can't wait to feel your body heat
