The first day we met girl it was so beautiful
And I told to you 'cause you were there oh no
It was obvious our feeling was mutual
I should told you babe but I just didn't know
Ut then you tried to owe me
Too many times you told me
But now I guess I'm afraid I'ma have to leave you lonely
And I know that I want you
And I know that I need you
Oh baby

Chorus:

Try to understand that it's hard for me
'Cause I'm so confused
I am making bets I can take you on it's too soon
I can make you... so I can ask you to stay

Though I want you too
It's hard to give my heart away to you

I don't mean to... all my past history
See the someone way back
See you try to owe me
Too many times you called me
And that is why I'm afraid I might have to leave you
lonely
And I know that I want you and I know that I need you

[Chorus:]

See you try to owe me
Too many times you called me
And that is why I'm afraid I might have to leave you
lonely
And I know that I want you and I know that I need you

[2 x Chorus:]
