One moment
One moment ago
I left
I left the road
And got lost
With no map to find
But just stop
And gotta be
Right back home
To where you are
To the place I need
To the place I started
Where I come home
The place I belong with you

Ooh yeah

And when I'm lost
It's you I turn to
And when my name is called
It's you I turn to

Only you
Only you
Only you
Only you

And when I'm lost
It's you I turn to
Only you

I walked
I walked the road
For so long
For so long alone
I found
One ray of light
I need
And it gotta be
Right back home
To where you are
To the place I need

To the place I started
Where I come home
The place I belong with you

Ooh yeah

And when I'm lost
It's you I turn to
And when my name is called
It's you I turn to

Only you
Only you
Only you
Only you

And when I'm lost
It's you I turn to you
Only you
Yeah
Only you
Yeah

When you are near
The way is clear
You show me who I am
Hey yeah

And when I'm lost
It's you I turn to
And when my name is called
It's you I turn to

Only you
Only you
Only you
Only you

And when I'm lost
It's you I turn to you
Only you
Yeah

One moment
One moment ago
I left
I left the road
