Is there anyone with sense, put an end to this violence
I kill you, you kill me
We've got an empty country
So the cycle goes around, it goes up and comes down
Soon your smile becomes a frown
When karma visits your town

Come in silence with your soul
Peace not violence is the goal
Come in silence with no sword
Peace not violence is the word

Cause war's a boomerang
Round and round it goes
Where it stops nobody knows
Round and round it goes
Where it stops nobody knows

And is the GOD of the east
Not the GOD of the west
Or has he chosen some children
And forsaken the rest
The GOD of the east is he not GOD of the west
Has he chosen Sam's children and forsaken the rest

All things great and small, he loves them all
All things great and small, he loves them all

Since Cain, since Cain
Since Cain slew Abel
Misery and pain
Since Cain, since Cain
Since Cain, slew Abel
Misery and pain
