Long live the night & all those things that must be free
Captured within their realm of silent symphony
Forces of armor have tried 2 hold them back
Angry cries of vigilance 2 never be held back

They walk the streets alone
& raise their heads up high
The battle rages on
They're on their path 2night
They'll win the war this time
But will it end the fight?

Take u down 4 fillin' me with lies now I will
Tear u down & leave u lyin' like u left me
Torn & all alone, I'll take u down

They violate the night alone & make their way
2 find the vision of the dream 2 come their way
Twice in the past, their dreams have now eluded them
They band 2gether 2 release their fallen friend

They walk the streets alone
& raise their heads up high
The battle rages on
They're on their path 2night
They'll win the war this time
But will it end the fight?

Take u down 4 fillin' me with lies now I will
Tear u down & leave u lyin' like u left me
Torn & all alone, I'll take u down

They walk the streets alone
& raise their heads up high
The battle rages on
They're on their path 2night
They'll win the war this time
But will it end the fight?

Take u down 4 fillin' me with lies now I will
Tear u down & leave u lyin' like u left me

Torn & all alone, I'll take u down

Take u down 4 fillin' me with lies now I will
Tear u down & leave u lyin' like u left me
Torn & all alone, I'll take u down

Take u down 4 fillin' me with lies now I will
Tear u down & leave u lyin' like u left me
Torn & all alone, I'll take u down
