Two hearts together
Just like you and me

Taken back to a place in the time
Back to where we were
One night I could surely remember
That foggy cold September

While I was always dreaming
I could never believe
That our love will always be there
Just remember me

Two hearts together
And it will always be
Just like two hearts together
It's just like you and me

In a time and a moment
When I was lonely and weak
You came along and changed my feeling
And brought me to my feet

While I was always dreaming
I could never believe
That our love will always be there
Just remember me

Two hearts together
And it will always be
Just like two hearts together
Just like you and me

Two hearts together
And it will always be
Just like two hearts together
It's just like you and me

Two hearts together
And it will always be
Just like two hearts together

Just like you and me

Two hearts together
It will always be
Just like two hearts together
Just like you and me
