Born in a dream & held within your mind  
It's all the future, it's only u & I, my only destiny  
I've waited here so long, 2day I stand here with u  
2morrow dreams come true

From the dark & misty clouds  
I ride out retrieve 2 seize the love 2night  
& bring her close 2 me

Again I long 2 bring u near 2 me  
No 1 else could ever

Chorus:  
Your love 2night  
Is all I need  
Your love 2night  
2morrrows dreams

So many nights alone  
But I still believe the only 1 I've waited 4 will 4ever be  
There's not a doubt in me  
Knowing what I know  
Our fate was meant 2 be  
There's something more 2 see
