you rich fucking scumbag your gonna get a brick  
because your life style is the anchor that sinks us in the  
shit  
you have cars worth more than houses, but that isn't  
enough  
your life is based on property and wealth you stole  
from us  
invested. gentrifucking our neighborhoods and town  
while sucking the life out of everthing you touch  
the problem is so fucking clear, the solution so plain to  
see  
and the fucker hanging for the noose will be you not  
fucking me

your gonna witness vengence you cannot comprehend  
lifetimes of robbing us will get you in the end  
our anger has been breing, fewer options left to  
choose  
watch your fucking backs when we attack there's  
nothing left to lose

we fought your arrogance with notes that came on  
bricks  
smashed your shiny shop fronts up and bashed your  
car to bits  
but your stupid fucking media let loose a river full of  
shit  
and tryed to drown us all and minimalize what we had  
taken bit by bit  
of course thay would protect your wealth at any cost

but when they labeled our attacks racist they had it  
fucking wrong  
were fed up and full of hatred but it won't be  
misdirected  
if your poor you're fucking poor but if your rich you'll  
fucking get it

you stupid fucking parasite you got you got your  
fucking brick  
and there is a million more waiting to sink you into shit  
from the start of time you've raped and robbed

yourself right to the top  
refused to see the lives it's cost to get where you are  
ignored the agony of those who've suffered from your  
greed  
and most of all your lives have made our lives a living  
hell  
so now is the time to get revenge and see the tables  
turn  
we'll torch your cars and houses and then we'll watch  
you fucking burn
