"Concealed Genocide"

Visit "[Concealed Genocide](#)" on MotoLyrics.com

while people to in jail crime does not decrease
society is no better place and no one is rehabilitated
jails are overcrowded minorities are criminalized
the governments war on drugs is a war on minorities

combining imprisonment with the lifestyle of minorities
is nothing more than a form of concealed genocide

laws are existing to protect money and property
not to protect people and their human rights

while the rich white male is the owner of everything
the laws are there to protect him form minorities
