Look into his eyes
Never look again
So much to hide
For fear that he has sinned

He's lost all self control
In his life he has no goal
He feels he needs no reason at all
The mutilation of his soul

Left in a trance - confused
Wondering what is right or wrong
Nothing left but life - to lose
Faithful to his God for so long

Deception of faith
Fear inside eyes - screams but no reply
Deception of faith
World of misery - beyond insanity

Witness his world decay
Thousands of people dying everyday

All hope for peace is lost
He'll pay the price at any lethal cost

Deception of faith
Fear inside eyes - screams but no reply
Deception of faith
World of misery - beyond insanity

In this world
Hidden lies that they hiding from us
Cause for corruption
Distant signs from heaven above
