It's out of the ashes and into the dust  
Why are you fools so fucking eager to trust?  
The same fucking scum that bribe you with wages  
As they've done from the start  
As they will through the ages

[Chorus]

If there's liberity freedom and justic for all  
They why do we suffer and why do we fall?  
When the rich fucking scum's greed won't cease to  
persist  
While we slave and we toil  
Just barely exist

If there laws are set up to serve and protect  
Why the fuck is there so much famine and death?  
Why do innocent die while the scum still stay in power?  
While we waste our whole lives protecting these  
cowards  
If it all works so well and they are striving for peace

Why is there torture and war, greed and death?  
While we work and we toil till our last dying breath

And you're so fucking happy  
Living under the gun  
While you slave and tou toil  
They have their day in the sun  
If their wars preserve freedom for one and for all  
Then why don't they die on their own battelfields?

Does this system work?
