"Last Resort (Welcome To Poverty)"

Welcome to lower existence
Prey on the innocent
Welcome to the rude life
Notice life where time stands still
See the other side of life
Where the poverty shows their wealth

When crime means dying
Placed to steal just to survive
Pillage and raping
Smell the stench of the rich gone poor

They wait for an answer
One day they know they're gonna pay
They've lost all their pride
They've lost their mind in a mental phase

A time will come and you will see
Approach the gutters of poverty
Stench of poor left to die
Smell the brains of a lunatic's mind

Welcome to lower existence
Prey on the innocent
Welcome to the new life
Gaze the streets
See the other side of life
Notice where time stands still
Where the poverty shows their wealth

When crime means dying
Smell the stench of the rich gone poor
Pillage and raping
Placed to steal just to survive
