We don't got here anymore,  
It's boarded up the doors are closed.  
But you remember those weekend nights,  
when everything was alright.  
Ran by youth it was somewhere to go,  
meet all your mates everyone you know,  
And all the groups that you wanted to see,  
it was something very special to me.

Chorus:

And do you know the reason, why it all fell through?  
they got no room for you at all.  
And do you know the reason, why it all fell through for  
you?  
They got no room for you.

Well I could be talking about somewhere else,  
In towns around its all the same.  
What the kids want don't matter one bit,  
and there's thousands of you who are treated like this.

Chorus:

Well it's over now, you killed the fun,  
don't try and tell us you're the 'caring' ones.  
We're not fooled by and you outta know,  
You don't give a damn and it already shows.

Chorus:

Composed , written and arranged by Bob 'Miff' Smith.
