[Music: Adams / Harrington / Vander Ende]

[Lyrics: Esquivel]

This is the real thing  
There's no reality  
Is there a promised afterlife to seek

Wandering endlessly  
Drift on through the time  
If you're heading for disaster  
You're bound to see the light

Is there a new way  
To live and die  
Is there a future or afterlife  
I've tried to see through  
But to die is to die

I've tried to see through times  
The promised afterlife  
I've tried to see through times  
The promised afterlife [X2]

*[Repeat first verse]*

*Wandering endlessly  
Drift on through the time  
If the end is to be over  
Should we pray to see the light*

*So try to see through time  
See my eyes  
There is no promised afterlife [X2]*

*Is there a new way  
To live and die  
Is there a future or afterlife  
I've tried to see through  
But to die is to die*
