

Defiance "Steamroller"

Visit "[Steamroller](#)" on MotoLyrics.com

Shattered minds of weak decrepit souls
Distant signs of dark deception grows
Brought up to the shining of the light
Eternal forces corrupt your mind

Mislead from birth to death
Empty feelings of insanity is known
Living everyday in fear
The pain that's growing near
Is there a way for you to see
Why you live in a fantasy

You live your life in confusion
You don't know how to set your mind free
You've learned to forget and let them be
That's why you live in misery

You live your life in confusion
You don't know how to set your mind free

You've learned to forget and let them be
Insanity !

Shattered minds of weak decrepit souls
Distant signs of dark deception grows
Brought out to the shining of the light
Return to the comfort of the night

Slowly dying in the freezing cold
Disbelieve of the warnings you were told
