Ooh, when the tears fall away
And there's no conversation
There's nothing left to break
That's not already broken

You're staring into space
And every inch of silence
Been standing here for days
And days

Said it all
Nothing to say at all
Nothing to say that matters
Haven't we heard enough

Said it all
Nothing to say at all
Nothing to say that matters
Doesn't matter, anymore

In the sudden light of day
No weight of expectation
The hurt begins to fade
As you find a new direction
Been talking here for days
And days, and days
Said it all
Nothing to say at all
Nothing to say that matters
Haven't we heard enough

Said it all
Nothing to say at all
Nothing to say that matters
Doesn't matter, anymore, ooh

All of the miles of words we've spoken
All of the lines that got away
Didn't we take the time to say them all

All of the miles of words we've spoken
All of the lines that got away

Didn't we take the time to say them all

Said it all
Nothing to say at all
Nothing to say that matters
Haven't we heard enough

Said it all
Nothing to say at all
Nothing to say that matters
Haven't we said it all
